

Game forms offered by Bubblemania.pl

1. Bubble Football – the most exhausting form of entertainment, usually lasts 2 – 3 minutes. The ball is placed in the middle of a pitch and the players of each team stand on the goal lines. When the whistle blows, players run fast towards the ball and fight to take it over, crashing [spectacularly](#) in the middle of the pitch. After such an impressive beginning the game lasts until the first goal is scored. After that players start again from the goal lines and the ball is placed in the middle of the pitch. During the game fouls and outs are usually not whistled. The goalkeeper is optional. If there is a tie after time set, the teams can play until the first scored goal (so called “golden goal”).
2. Wrestling – players stand on the perimeter of a marked circle. When the referee whistles, they try to push out or knock over other players. A person who is knocked over or pushed outside the circle loses and has to leave the game arena. The last player to stay inside the circle wins the game.
3. Bowling – a few players stand in such a way to form a triangle (just like bowling pins are placed). One person (“the ball”) starts to run and tries to break up the “bowling pins”. The number of players who fall after the crash is the number of points scored.
4. Racing – players stand in one line and when the referee whistles, they roll ahead towards a marked finish line. First person on the finish line wins. No running allowed.
5. The wall – players stand in one line, one person starts to run and tries to break through the wall of people, for example by choosing the weakest link. The person who breaks through the wall or knocks over the highest number of “bricks” in the wall is the winner.
